PROJECTS

JobbedIn | **Next.js, OpenAI SDK, LangGraph, Supabase, Vercel**

- **Built** a **multi-agent** job hunting **operating system** to research company information and generate personalized cover letters and outreach messages to hiring personnel.

DearDish | **SvelteKit, FastAPI (Python), Vercel AI SDK, Postgres, Vercel, Cloudflare R2**

- **Built** an **AI agent** that helps people with health challenges adapt recipes to their dietary profiles. **Integrated** Themealdb, Spoonacular with **RAG** for AI-powered recipe, ingredient search engine.

WORK EXPERIENCE

Software Engineer 10/2025 - present

OregonFlora *Corvallis, Oregon*

- **Improved** reliability and performance of a statewide research system serving **over 150,000 users with 1.5 million requests** using **PHP, React, jQuery, Leaflet, MySQL**.
- **Reduced** ingestion pipeline processing time from **2 hours to 2 minutes** through optimized database update and caching strategies.
- **Led** the adoption of **Claude Code, Docker, GitHub Actions, CI/CD** to automate development, testing and deployment of platform, reducing cost by 70%.

Technical Advisor 9/2026

Plucia *Dubai, United Arab Emirates*

- **Restored** an undocumented AI-powered sales agent using **React, Hono, AWS Bedrock, OpenAI SDK, React Query, Zustand** to a production-ready state.
- **Reduced** technical overhead by transitioning from **Neon** database to generic **Postgres.**
- **Took ownership** of product management and **coordinated** technical and product work.

Software Engineer 9/2020 - 11/2022

ICC Innovative Consulting *Ho Chi Minh City, Vietnam*

- **Maintained** a high-throughput **B2B** distribution management system using **.NET (C#), Vue, Typescript, Postgres, Microservices, Redis, Kubernetes.**
- **Enhanced** the activity generation algorithm, reducing runtime from **1 hour to 1 minute**.
- **Developed** An Sinh, a **large-scale mission-critical** social security application supporting **9 million citizens** during COVID-19 in Ho Chi Minh City using **NestJS, MongoDB, React, Typescript**.

TECHNICAL SKILLS

- **Language**: C, C++, C#, Python, Go, TypeScript, Bash
- **Frontend**: React, Vue, Svelte, Next.js, Tailwind
- **Backend**: .NET, Node.js, NestJS, Express.js, FastAPI, Hono
- **Database**: MySQL, Postgres, MongoDB, GraphQL, Redis, RabbitMQ, Solr
- **AI Agent Framework**: LangChain, LangGraph, OpenRouter, Vercel AI SDK
- **Coding Agent**: Claude Code, OpenAI Codex, Cursor, OpenCode, Lovable
- **Cloud Platforms**: AWS, Vercel, CloudFlare, Postgres (Supabase, Neon)

EDUCATION

Oregon State University Corvallis, Oregon

Master's degree, Computer Science, GPA 3.9 6/2026

Ho Chi Minh University of Technology Ho Chi Minh, Viet Nam

Bachelor's degree, Electrical Engineering
